PROGRAM MISSION

“The mission of the Florida Long-Term Care Ombudsman Program is to improve the quality of life for all Florida long-term care residents by advocating for and protecting their health, safety, welfare, and rights.”

MESSAGE FROM THE SECRETARY

The Long-Term Care Ombudsman Program (LTCOP) plays an essential role in protecting the health, safety, well-being, and rights of residents of long-term care facilities in Florida. LTCOP staff and volunteers are tireless advocates who work to enhance every resident's quality of life through a collaborative resident-centered advocacy program.

There have been several positive changes with the program in recent years, including refocusing efforts to be more resident-centered, encouraging and empowering residents to self-advocate by giving them the counsel and tools needed to resolve their issues directly with the facility.

Additionally, volunteer ombudsmen have significantly increased their presence in the facilities, which has enabled them to assist residents earlier on before matters could escalate and become serious problems.

These outstanding volunteers make a difference every day in the lives of long-term care residents and their families. We are grateful for those who choose to work or graciously give their time in service to benefit others, meeting their needs and improving the communities in which they live.

I could not be more proud to stand with the staff and volunteers of this program. Their commitment and dedication is inspiring, and I thank them on behalf of the Department of Elder Affairs.

PROGRAM HIGHLIGHTS AND SUCCESS STORIES

Assistance with Relocation

An Ombudsman Program volunteer assisted a resident who longingly wanted to move out of state to be with his wife. The facility in which he resided was not sending the information requested to the receiving facility timely, resulting in a bed becoming unavailable. This occurred multiple times, frustrating both the resident and the resident's family. With the assistance of the ombudsman the facility received the documents needed to hold a bed and the resident was able to reunite with his wife.

PROGRAM HIGHLIGHTS AND SUCCESS STORIES

Successful Challenge to Facility Action

A nursing home resident was inappropriately discharged from a facility. The facility's reason for discharge was that "the safety of other individuals in the facility is endangered." With ombudsman assistance, the resident requested a hearing to challenge the facility's action. A hearing was held where a final order was entered establishing the facility erred when it discharged the resident for being a danger to others. The facility was ordered to reverse its decision and allow the resident to return when the next bed is available. The facility subsequently refused to take the resident back. Our ombudsman referred the case to the Agency for Health Care Administration (AHCA) for investigation. Based on AHCA's survey, the Centers for Medicare and Medicaid Services fined the facility \$725.00 per day until substantial compliance is achieved. The facility was also placed on notice that discretionary denial of payment for new admissions would take effect if the facility is still out of compliance on a specific date. With persistence from the Ombudsman Program the resident was allowed to return to the much needed safety of a nursing home facility.

Refund of Misapplied Fees

The ombudsman program received a complaint from a resident in a nursing home. For almost a year after the resident had moved to her new nursing home, her former assisted living facility had continued to take a large sums of money from her banking account. Both the resident and the administrators at her current nursing home had been unable to secure a refund from the old assisted living facility. After several meetings, the volunteer ombudsman was able to obtain a refund of several thousand dollars.

Facilitating Research on the Impact of Opiate Use in Long-Term Care

A local council was contacted by the National Consumer Voice for Quality Long-Term Care with a request to assist with a study titled the 'Opiate Project and Long-Term Care Resident Dialogue.' An ombudsman was able to accommodate the request by coordinating an invitation to attend a Resident Council meeting and conduct individual interviews with residents at a local nursing home. The goal of this short-term project was to gain a better understanding of the impact of the opioid crisis on residents of long-term care facilities. Overall the study helped Consumer Voice, the Ombudsmen program and the residents of the facility understand pain management, how resident's quality of life and care is impacted due to opioid misuse, resident's knowledge about their rights for person centered care, and what support is available from the local Ombudsman program. It was a win-win-win situation for all involved.

OVERVIEW - STATE COUNCIL

Message from the State Council Chair

*State Council Chair
Dennis Jefferson.*

A huge "Thank You" to all the OMB's out there from the "I'm so new that I can't even spell OMB" to our State Ombudsman, Michael Milliken (who is no longer with us and is already missed). Thank you one and all.

It has been a very rewarding year for several of you who were recipients of the President's Volunteer Service Award, yours truly included. Put in the time and effort and you can be sporting this unique lapel pin and yet another certificate for your honor wall.

It has been a joy for me to finish my two year tenure as your State Chairman and I encourage all of you to get personally involved at the State level. It is way more than just "another meeting. The inter-action and decision making along

with recommendations to the State OMB is a real joy to see in the making. The face to face time with all the State Representatives is priceless.

I personally do a lot of unscheduled visits to our residents here in Volusia/Flagler counties. The smiles and praise for our program relayed to me is heart warming and easily overcomes any objections that can creep into our lives. Keep it up ladies and gentlemen as it could be us one day in a nursing home or assisted living facility as we beg to see a warm, sincere smile and someone serious about helping our plight!

Keep it up gang. You are fantastic and remember that "It is not where you travel to and what you do but who is by your side and has your back." That's us! We are all partners when it comes to advocating for our residents!
